Federation Meet Qualifying Procedures

NXR NEW YORK INFO

MEET DATE & LOCATION: 11.21.2026 - Bowdoin Park, Wappingers Falls,
NY

STATES INCLUDED: NY

In 2024 Nike and the New York State Federation partnered on a post-season cross-country championship event, merging Nike Cross Regionals and the New York Federation Cross Country Championships into one meet. This

partnership continues in 2026. The Championships will take place on Saturday, November 21st at Bowdoin Park in Wappingers Falls, New York. This meet format enables competing athletes to race at their Federation meet, while at the same time vying to secure a spot to Nike Cross Nationals in Oregon. The merge of the two meets has enabled us to again hold the Nike Regional meet a week earlier than previous years affording athletes, parents, coaches, and staff the opportunity to fully enjoy their Thanksgiving holiday weekend. We hope the experience is a good one for all that are involved in the meet.

Selection for the New York Federation Championship races will continue to be made by the New York Federation Committee as always. Questions about the New York Federation Championship races should be directed to Lou Vazquez. Questions regarding the New York Open races can be directed to either Joe Lanzalotto or Paul Limmer. (see "Contact" for e-mail addresses). More details about race day will be shared by NXR Race Directors on RunnerSpace in the coming months.

Section XI Cross Country Course Certification

1. Your athletic director must contact Section XI to have your course certified.
2. Your course must meet the below mentioned criteria. (NFHS T&F Rules)
3. Your course should also have a mile marker and a two mile marker.
4. Maps must be provided to visiting schools at least two weeks prior to the contest. You can send the course map to Vin Ungaro and he will post on the Suffolk Coaches website.

Rule 8 - Cross Country (NFHS 2021)

Rule 8-1-1

The cross country run shall be a course 2500m to 5000m (1.5 to 3.1 miles) in length as determined by the meet director or games committee. Measurement shall be along the shortest possible route a runner may take on the course.

- The course shall be clearly marked. This may be a single-wide line marked with material which is not injurious to the eyes or skin. (Note: this may or may not be the shortest route) Small survey flags or cones at least 12 inches high of an appropriate color may be used in lieu of painted lines or survey chalk.
- The use of natural or artificial boundary markers.
- Signposts with large directional arrows wherever the course turns, or by flags about one foot square and mounted on stakes which hold 6-feet or more above the ground.
 - 1) Red- A turn to the Left, where the runner stays to the right of the flag.
 - 2) Yellow- A turn to the Right, where the runner stays to the left of the flag.
 - 3) Blue- run Straight, where the runner may run on either side of the flag.

Rule 8-1-2

In case of a discrepancy in the course markings, directional flag markings take precedence over any other course markings.

The race course should include the following features:

- A) Signs and flags at least 6-feet above the ground visible for 100-feet. Turns and guidelines should be marked on the ground with material which is not injurious to eyes or skin. The course should have room for runners to jockey for position and pass other runners even at its narrowest point.
- B) No ground obstructions which might cause tripping, turned ankles, etc. No overhead objects such as tree branches lower than 8-feet above the ground.
- C) A 2-inch wide starting line marked at the beginning of a lengthy straight-away, wide enough to accommodate all teams; i.e. a width of the number of teams multiplied by 6-feet.
- D) Avoid lengthy and exceptionally steep slopes, with such inclines or declines interspersed throughout the course, but with limited inclines or declines near the start or finish.
- E) Where there are inclines or declines, particularly if they must be steep ones, try to have a level segment afterwards so athletes can recover from the physical and mental strain which they just completed.
- F) Where there are hills, the route should be up and down, rather than parallel to the contours of the hills where footing, stride and pace could be affected, and injury could potentially occur.
- G) Have gradual and sweeping turns (no sharp turns) which will allow runners to run at an even pace and avoid congestion and contact with other runners.
- H) Avoid long stretches of hard surfaces, such as roads, as most of the runners would likely be wearing spikes, and you would have to have extra volunteers to reduce risk of competitor injury.
- I) Allow for open stretches along the course, where runners can jockey for positions and assess distances.
- J) Avoid situations where the runners would cross paths with each other during the race.
- K) Provide areas with good crowd control, where spectators can enjoy the race and cheer for their favorite runner or team without interfering with the runners.

- L) At the end of the course, a straightaway of at least 150-yards ending in a rope funnel with a mouth 15-feet wide. The finish line should be at the mouth of the funnel and 15 to 25 feet from the chute. This funnel should narrow to a rope chute about 30 inches wide and at least 100-feet long. Stakes supporting the ropes should be solid enough to permit taut ropes, and the stakes and ropes near the finish line should be well-padded. For larger meets, the use of multiple chutes is recommended.
- M) On fairly-level ground, there should be adequate space for finish chutes, timing equipment and judges, and for athletes to catch their breath, get water, receive medical aid, and to remove chips (if used).

NFHS Cross Country Weekly Rule Interpretations

Welcome to the beginning of the 2026-27 school year and the NFHS cross country season. We are excited about the upcoming fall season and look forward to sharing weekly interpretations with you this year to keep us all aligned.

As the new school year begins, there are a few important items to share with officials across the nation. The primary role of the official is to ensure a competitive environment that does not heighten the risk of injury, and that the actions of competitors, coaches and other team personnel are in compliance with the rules. Focus is on fair competition with the attention on the athletes, rather than the official. The conduct of each official affects the public's attitude toward all officials. Therefore, every official must uphold the honor, integrity and dignity of the profession.

Whether you are a veteran official or first year official make sure you are ready for the upcoming season. Remember the 2026 Rules Book is used for the fall cross country season.

- 1. Take a minute to review your officials kit to make sure you show up prepared for your first meet.**
- 2. Make sure that you monitor the weather conditions as you will serve as a crucial set of eyes alongside meet directors, and athletic trainers.**
- 3. At the start line make sure your instructions are clear, calm and concise. Athletes are already filled with adrenaline and ready to go; long speeches only heighten the tension.**
- 4. Make sure teams are easily identifiable. Sometimes in regular season meets there are not clerks available and it is important to make sure teams are ready to go and identifiable.**
- 5. Walk the course before the meet. Make sure it is clearly marked and there are no hazards in the way. Make sure the finish line is set before and meets the NFHS rules.**

Cross Country is a unique atmosphere for participants and fans. It is a high intensity sport rooted in community and camaraderie. Thank you for dedicating your time, weekend mornings, and energy to supporting interscholastic athletics. Have a safe, rewarding, and exciting cross country season!

SITUATION: Arriving at the cross country course for a meet, a coach from Team A protests the route as there is only an 80-meter straightaway up a hill before a slight curve to the right at the beginning of the course. The official informs the coach that the 100-meter straightaway is a recommendation not a requirement for a race course.
RULING: Incorrect procedure. COMMENT: A straightaway at the beginning of the course of at least 100 meters is required before any significant turns. [8-1-2]

SITUATION: While inspecting the cross country course prior to the meet, the visiting coach discovers that in several portions of the course, bales of hay or logs have been placed across the running course; theoretically, to make the course more challenging. The coach of the visiting team objects to the artificial barriers. **RULING:** The artificial barriers shall be removed. [8-1-3b]

SITUATION: Upon arriving at the state championship cross country meet, which is held at a local golf course, Team A's coach protests to the referee that the course does not have painted or chalked directional lines to assist the runners. Instead, there is a series of small "surveyor"-type colored flags marking the course direction. **RULING:** The protest is denied. **COMMENT:** Survey-type flags are permitted when the venue will not allow the use of a painted or chalk line across the club fairways. [8-1-3]

Section XI

Sportsmanship Memo

The New York State Public High School Athletic Association and Section XI would like to ask for your cooperation in the promotion of the importance of proper sportsmanship at all of its athletic contests.

Trash talking, inappropriate comments and general poor sportsmanship have become an increasing problem and we would ask that you communicate the following guidelines with the coaches at your Mandatory Coaches Meeting.

1. There will be zero tolerance for harassing statements related to gender, race, ethnicity, disabilities, sexual orientation or religion by players, coaches, fans or officials. It is our goal to reinforce our expectations of proper sportsmanship at all times. Incidents or violations will be handled through the regulations outlined in the NYS and Section XI procedures with the appropriate penalties administered.
2. We have asked the officials to deal with this type of behavior with immediate and strict enforcement.
3. Officials are not to be involved directly with the spectators. Officials will report this type of behavior with fans directly to the home school and follow proper procedures. Home school game administration will be responsible for the conduct at the game site.
4. Serious incidents or violations shall be reported to Section XI on the next Business day.
5. Coaches are asked to reinforce proper sportsmanship with their players on a regular basis and model good sportsmanship themselves.
6. Athletic Directors are asked to please review with their coaches the NYSPHSAA expectations and monitor their athletes and staff.

Thank you for your cooperation and assistance in creating a positive, enjoyable and healthy athletic experience for all.

Section XI

Automatic External Defibrillators

THE FOLLOWING POLICIES ARE IN PLACE AND MUST BE FOLLOWED RELATED TO **AEDS AND EMERGENCY PROTOCOLS**

Coaches are reminded that Section 136.4 of the Regulations of the Commissioner of Education (9/2002) requires that schools provide and maintain sufficient automated external defibrillator

equipment be available to ensure ready and appropriate access for use during emergencies as well as trained personnel to administer.

In order to provide an efficient and consistent handling of emergency situations the following steps **MUST** be followed:

1. The Home School is to be responsible for providing AED-trained personnel and a sufficient number of AED's at all interscholastic contests such that an AED can be effectively administered within 2-3 minutes to a stricken student-athlete, coach or spectator.
2. Prior to each contest, the home school coaching staff is to advise the visiting coaching staff and officials of the location of the AED and the personnel designated to utilize it.
3. All medical or AED-trained personnel that are present at the contest are to be identified prior to the contest.
4. All athletic emergencies are to be reported to the Athletic Directors of the respective districts immediately following the contest.
5. No contest will take place without an AED available and able to be administered as per #1 above.

Thank you for your cooperation and best of luck this season.

Dual/Double-Dual Meet Rules and Scoring

- In dual and triangular meets, twelve runners shall be allowed to participate per team.
- Only the best five scorers will count in calculating a team score. The scores from these athletes are added and the lowest total wins the cross-country meet.
- The top seven athletes for a given team are eligible to be used for calculating team scoring in the meet as a whole. Athletes 8-12 for a given team cannot displace runners in team scoring calculations.
- Ties in team scoring shall be resolved by comparing the sixth-place finishers from the tying teams. The team with the best sixth-place finisher shall prevail.

- If you do not have five athletes on your team, you cannot win a dual or triangular meet.

Championship Scoring

- At championship meets, a cross country **team** shall consist of a minimum of five (5) runners and a maximum of seven (7) for scoring purposes.
- Runners who do not have a team of at least five runners are not assigned points for scoring purposes, but any place held by a competitor will be recognized with the appropriate awards.

The score of this meet would be Pottersville 19 and Mount Royal 44. An example of displacement for scoring purposes is the runner who placed 10 (Ben Anthony). Although Ben was 10th overall in placement, he did not earn 10 points. Instead, he is removed for team scoring purposes and the next athlete (Anthony Grey) is awarded 10 points even though he placed 11th. The same happens at invitationals for teams that do not have five team members. They are awarded their place, but are not assigned points for team scoring.
